Сводка

#LI-Onsite
Location: Baarle-Nassau, Netherlands

Relocation Support: This role is based in Baarle-Nassau, Netherlands. Novartis is unable to offer relocation support: please only apply if accessible.

Be at the heart of a highly specialized supply chain where precision, timing and reliability truly matter. As a Supply Chain Specialist, you will support end-to-end supply chain activities for our radioligand therapy and isotope production site, helping ensure material and isotope availability, effective inventory management, compliant logistics, accurate master data and reliable order fulfilment.

You will coordinate activities across the reactor-to-patient supply chain, connecting target materials, reactor and irradiation interfaces, isotope supply, radioactive-material transportation, radioligand therapy production requirements and isotopes distribution.

About the Role

Key Responsibilities

- Ensure availability of raw materials, target materials and consumables in line with production plans.
- Manage material requirements planning, purchase order follow-up, inventory levels and safety stocks to maintain supply continuity.
- Coordinate irradiation schedules, target availability and delivery timing with irradiation partners.
- Translate reactor schedules and demand input into site production requirements.
- Identify and mitigate supply risks related to reactor outages, capacity, production yield, suppliers and material availability.
- Coordinate inbound and outbound flows of raw materials, irradiated targets, and isotopes.
- Manage time-critical radioactive shipments, balancing irradiation timing, radioactive decay, transport lead times and required activity at receipt.
- Ensure logistics comply with applicable regulations for good manufacturing, distribution, and dangerous goods
- Manage order fulfilment, delivery priorities and accurate planning, material, inventory and logistics data within enterprise resource planning systems.
- Develop contingency plans and drive improvements in supply reliability, inventory, logistics performance, compliance and cost efficiency.

Essential Requirements

- Bachelor or master degree in a relevant field, preferably Supply Chain Management, Logistics, Operations, Engineering or a related discipline.
- Experience in Supply Chain, Planning, Logistics or Materials Management, preferably in a pharmaceutical or regulated manufacturing environment with knowledge of GMP/GDP.
- Strong ERP/MRP and inventory-management knowledge.
- Understanding of radioligand therapy and isotope supply chains, reactor irradiation interfaces and radioactive decay or the ability to learn this rapidly.
- Relevant dangerous-goods and airfreight-security certification/expertise, or ability to obtain and maintain required qualifications.
- Strong cross-functional coordination, problem-solving and escalation-management skills.

This is a shift-based role that includes rotating weekend coverage. As part of the shift schedule, you may be required to work occasional Saturdays or Sundays to support continuous site operations and the timely supply of isotopes.

Benefits & Rewards

At Novartis, we’re committed to reimagining medicine together - and rewarding the people who make it happen.

Expected Annual Base Salary Range for role:€ 45,900 to € 85,300

The base salary offered is determined based on gender-neutral objectives, such as relevant skills, competencies and experience in accordance with the Novartis pay setting policy and upon joining Novartis will be reviewed periodically.

In addition to your base salary, you may be eligible for a performance-based bonus depending on certain performance parameters.

The rewards of being part of our team go far beyond base pay and incentives. We also offer a variety of competitive benefits in kind to help you thrive personally and professionally, such as insurance plans, retirement plans, wellbeing resources and global recognition programs. In addition, we provide flexible and hybrid working options, where possible, and minimum 14 weeks paid parental leave.

Pay equity is a fundamental principle of our employment policy and reflects our commitment to create a diverse, equitable and inclusive environment that treats all employees with dignity and respect, as outlined in our Code of Ethics.

Read our brochure to learn more about our global total rewards offering:https://www.novartis.com/sites/novartis_com/files/novartis-life-handbook.pdf

Note: Benefits and compensation may vary by country and are subject to local legal requirements, including provisions of collective bargaining agreements where applicable. A full overview of your compensation package, including any relevant collective bargaining agreement details applicable to your role based on your employment location and Novartis employer entity, will be communicated separately to you during the application process.

Commitment to Diversity and Inclusion

Novartis is committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together? https://www.novartis.com/about/strategy/people-and-culture
