Сводка

#LI-Hybrid
Location: Schaftenau, Austria
Relocation Support: This role is based in Schaftenau, Austria. Novartis is unable to offer relocation support: please only apply if accessible.

Ready to shape the next generation of digital manufacturing? As a Senior Manufacturing Systems Expert (m/f/d), you will help drive the evolution of our manufacturing systems landscape, taking existing electronic batch records and Manufacturing Execution System solutions to the next level. With a strong focus on the future, you will join ongoing improvement projects while also developing new solutions from the ground up, turning ideas and manufacturing needs into robust, scalable technical concepts. By connecting manufacturing expertise with systems engineering and digital technologies, you will play an important role in shaping our future Manufacturing Execution System environment and driving key projects forward.

About the Role

Key Responsibilities:

- Drive the evolution of Manufacturing Execution Systems and electronic batch records toward scalable, next-generation solutions.
- Lead improvement initiatives that enhance system robustness, usability, maintainability and manufacturing efficiency.
- Advance ongoing projects while developing new digital manufacturing solutions and technical concepts from the ground up.
- Optimize integrations and data flows between Manufacturing Execution Systems, Enterprise Resource Planning, automation and equipment.
- Translate manufacturing needs into sustainable technical solutions, system functionality and integration requirements.
- Lead technical assessments, testing, qualification and validation for system improvements, upgrades and manufacturing changes.
- Provide senior technical expertise, troubleshooting and guidance across Manufacturing, Automation, Engineering, Information Technology and Quality.

Essential Requirements:

- Relevant experience with Manufacturing Execution Systems, electronic batch records or comparable digital manufacturing systems.
- Strong understanding of manufacturing-system architecture, system interfaces and data flows.
- Experience analyzing complex technical challenges and translating manufacturing requirements into effective system solutions.
- Experience driving technical improvement initiatives, complex system changes or digital manufacturing projects.
- Solid understanding of Good Manufacturing Practice, data integrity and computer-system validation principles.
- Fluent German and English, with strong written and spoken communication skills.

Desirable Requirements:

- Experience in pharmaceutical, biotechnology or another highly regulated manufacturing environment.
- Experience integrating Manufacturing Execution Systems with Enterprise Resource Planning, automation or equipment systems, including system design, testing or validation.

Rewards

At Novartis, we’re committed to reimagining medicine together - and rewarding the people who make it happen.

The rewards of being part of our team go far beyond base pay and incentives. We also offer a variety of competitive benefits in kind to help you thrive personally and professionally, such as insurance plans, retirement plans, wellbeing resources and global recognition programs. In addition, we provide flexible and hybrid working options, where possible, and a minimum of 14 weeks paid parental leave.

Expected Annual Base Salary Range for role:

66.918,00 – 112.600,00 EUR

The salary offered is determined based on gender-neutral objectives, such as relevant skills, competencies and experience in accordance with the Novartis pay setting policy and upon joining Novartis will be reviewed periodically.

In addition to your base salary, you may be eligible for a performance-based bonus depending on certain performance parameters. Further details will be provided

during the application process.

Pay equity is a fundamental principle of our employment policy and reflects our commitment to create a diverse, equitable and inclusive environment that treats all employees with dignity and respect, as outlined in our Code of Ethics.

Read our brochure to learn more about our global total rewards offering:https://www.novartis.com/sites/novartis_com/files/novartis-life-handbook.pdf

Note: Benefits and compensation may vary by country and are subject to local legal requirements, including provisions of collective bargaining agreements where applicable. A full overview of your compensation package, including any relevant collective bargaining agreement details applicable to your role based on your employment location and Novartis employer entity, will be communicated separately to you during the application process.

Adjustments for Applicants with Disabilities: If because of a medical condition, physical disability or a neurodiverse condition you require an adjustment during the recruitment process, please reach out to disabilities.austria@novartis.com and let us know the nature of your request as well as your contact information. The support which we can provide will include advice on suitable positions as well as guidance at all stages of the application process. Austrian law provides candidates the opportunity to involve the local disability representative, Behindertenvertrauensperson (BVP), in the application process. If you would like to request this, please let us know in advance as a note on your CV.

Commitment to Diversity and Inclusion / EEO paragraph:

Novartis is committed to building an outstanding, inclusive work environment and diverse teams' representative of the patients and communities we serve.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together? https://www.novartis.com/about/strategy/people-and-culture

Benefits and Rewards: Learn about all the ways we'll help you thrive personally and professionally.
