Сводка

#LI-Onsite

Location: Baarle-Nassau, Netherlands

Relocation Support: This role is based in Baarle-Nassau, Netherlands. Novartis is unable to offer relocation support: please only apply if accessible.

In this role, you make an impact every day by ensuring our products are safe, reliable, and of exceptional quality. As a QC Analyst, you stand at the forefront of precision and quality: your work not only supports our production processes, but ultimately contributes to improving the lives of patients worldwide. You will do this within a fast growing company operating in a highly dynamic and innovative radiopharmaceutical industry. In an environment where accuracy and responsibility are essential, you will have the opportunity to apply your analytical strengths, laboratory expertise, and quality mindset to their fullest.

About the Role

Key Responsibilities

- Perform and document analytical testing on finished products, materials, and stability samples in accordance with GxP standards.
- Manage, store, and track samples to ensure traceability and accuracy.
- Conduct, interpret, and report microbiological monitoring within cleanrooms at the Baarle-Nassau site.
- Report technical complaints, deviations, or special situations within 24 hours of receipt.
- Maintain an orderly, safe, and compliant QC laboratory environment.
- Apply and follow safety, radiation, and laboratory regulations to prevent risks.
- Contribute to continuous quality improvement through proactive identification and solution-oriented actions.

Essential Requirements

- Bachelor's degree in chemistry, biochemistry, microbiology, or a comparable life-science field.
- Fluent in English
- Strong knowledge of good laboratory practices and current Good Manufacturing Practices.
- Excellent analytical skills and strong attention to detail in documentation and laboratory processes.
- Openness to working with new technologies and a continuous improvement mindset.
- Clear, open, and effective communication with internal and external stakeholders.
- work in weekend shifts

Desirable Requirements

- Dutch language skills in addition to fluent English.
- Ability to act quickly and prioritize with a strong sense of urgency.

Commitment to Diversity and Inclusion:

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together?
