

# Global Program Safety Lead - RLT

Job ID  
REQ-10077130  
май 06, 2026  
Великобритания

## Сводка

Novartis is seeking passionate individuals to join our innovative team. You will work with cutting-edge technology, collaborate with experts, and drive excellence in patient safety.

If you're eager to advance your career and be part of a forward-thinking company, we want you on our team!

## About the Role

This is a **director level** role and can be based in **London, UK** or **Basel, Switzerland** (REQ-10075289 ) or **Barcelona, Spain** (REQ-10077131).

**Location:** London (The Westworks), United Kingdom

### Working pattern(s):

#LI-Hybrid Hybrid (12 days per month on-site if living within 50 miles of our London office)

#LI-Remote Remote (if living beyond 50 miles of our London office)

If you are interested in one of the other locations please apply on the REQ number for that location.

### Key Responsibilities:

- **Safety Input and Team Participation:** Provide expert safety input to the clinical development program for assigned projects/products and actively participate in the Global Program Team (GPT), Global Clinical Team (GCT), and Clinical Trial Team (CTT). Lead the Safety Management Team (SMT). Responsible for managing safety issues from the formation of the GPT through Life Cycle Management.
- **Safety Strategy Preparation:** Own the projects/products safety strategy and lead the production of medical safety deliverables.
- **Core Global Labelling:** Responsible for initial development and ongoing maintenance of safety information in Core Data Sheet, addressing safety issues in all project/product indications.
- **Signal Detection and Safety Management:** Oversee overall signal detection, monitoring, evaluation, interpretation, and appropriate management of safety information, based on data from all relevant sources.
- **Regulatory and Professional Inquiries:** Lead the preparation of the safety strategy for health authority responses and collaborate with other project team members. Respond to inquiries from regulatory authorities or healthcare professionals regarding safety issues.
- **Departmental and Functional Goals:** Contribute to and often lead the development of departmental and functional/business unit goals and objectives. Proactively engages in the development of competencies across the Medical Safety Function

### Role Requirements:

- Medical Degree or equivalent is preferred; PhD, PharmD or equivalent graduate level health care professional degree required
- 3 years clinical experience postdoctoral
- At least 5 years' experience in drug development within a major pharmaceutical company, including:
  - A minimum of 2 years in a global role, and
  - At least 2 years' experience in drug safety in an operational or medical capacity.
- Experience in clinical trial methodology, regulatory requirements, scientific methodology, statistics and writing of publications
- Expertise in preparing or contributing to preparation of clinical safety assessments and regulatory reports/submissions involving safety information
- Experience with (safety or others) issue management
- Experience in leading cross-functional, multicultural teams

### Languages :

- Fluent English (both spoken and written) is mandatory.

### Additional Desirable Skills:

- Additional languages are desirable
- Oncology experience would be an advantage

*Bring your global safety leadership to an organization where your expertise will directly influence patient safety, regulatory confidence, and successful drug development worldwide—apply now.*

**Why Novartis:** Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together? <https://www.novartis.com/about/strategy/people-and-culture>

**Benefits and Rewards:** Learn about all the ways we'll help you thrive personally and professionally.
