Сводка

We are seeking an experienced and patient-focused professional to join our Radioligand Therapy team as Manager, Customer Operations. In this role, you will lead the end-to-end ordering and delivery process, ensuring seamless, compliant, and high-quality service to healthcare providers. You will play a critical role in enabling operational excellence and supporting access to highly specialized therapies in a complex and regulated environment.

About the Role

#LI-Hybrid

Internal title: Customer Operations Manager

Location: Toronto, Ontario

This role is based in Toronto, Canada. Novartis is unable to offer relocation support for this role: please only apply if this location is accessible for you.

This job posting is not for an existing position.

Key responsibilities:

- Oversee end-to-end customer operations, including order processing, case management, escalations, and communications with healthcare providers and treatment centers
- Act as the primary point of contact for healthcare professionals and institutions, ensuring a high-quality customer experience
- Monitor and drive key operational KPIs (e.g., on-time delivery, issue resolution, unused dose management), providing insights and continuous improvement recommendations
- Collaborate cross-functionally (Supply Chain, Manufacturing, Quality, Medical, Regulatory, Commercial, Field) to support therapy adoption and operational excellence
- Lead onboarding and operational readiness of RLT treatment centers, ensuring standardized processes and compliance
- Drive continuous improvement initiatives by leveraging analytics to optimize performance and enhance the customer journey
- Ensure adherence to regulatory, compliance, and pharmacovigilance standards, including timely reporting of adverse events
- Support governance, SOP standardization, and operational discipline in a highly regulated radiopharmaceutical environment

Essential Requirements:

- Bachelor's degree in Business, Life Sciences, Healthcare Management, or a related field.
- 3–5+ years of experience in supply chain, customer service, or operations within pharmaceuticals, or healthcare.
- Experience working in regulated environments with strong understanding of compliance requirements, CRM and ERP systems.
- Proven ability to collaborate effectively in cross-functional teams within complex environments.
- Strong customer-centric mindset with demonstrated operational rigor and process excellence.
- Excellent communication, problem-solving, and project management skills.
- Ability to manage complexity and drive execution with a patient-first mindset.
- Bilingual (French and English).

Desirable Requirements:

- Experience supporting highly specialized therapies and/or hospital-based care models.
- Digital and technology proficiency (e.g., analytics tools, supply chain systems, emerging technologies).

Rewards

At Novartis, we're committed to reimagining medicine together - and rewarding the people who make it happen.

Expected Remuneration Range for role:

CAD 125,120 - 173,696

The base salary offered is determined based on gender-neutral objectives, such as relevant skills, competencies and experience in accordance with the Novartis pay setting policy and upon joining Novartis will be reviewed periodically.

The rewards of being part of our team go far beyond base pay and incentives. We also offer a variety of competitive benefits in kind to help you thrive personally and professionally, such as insurance plans, retirement plans, wellbeing resources and global recognition programs. In addition, we provide flexible and hybrid working options, where possible, and minimum 14 weeks paid parental leave.
