Available in: English

## Сводка

The Data Science Intern will support the Data Science team within the Insights & Analytics (I&A) organization, contributing to both business operations delivery and innovation-led initiatives.

## About the Role

### Major Accountabilities

The role provides hands-on exposure to real-world data science applications in commercial analytics, enabling the intern to work on data-driven decision-making, process optimization. The intern will collaborate with cross-functional teams to deliver actionable insights, improve operational efficiency, and prototype innovative solutions, while developing strong foundations in data science, analytics, and business problem-solving.

#### A. Business Operations Support

- Assist in data preparation, cleaning, and validation across datasets (e.g., claims, sales, promotional data)
- Support execution of multiple data science models
- Contribute to ongoing model monitoring, QC checks, and performance tracking
- Help in documentation of workflows, SOPs, and process artifacts to ensure delivery consistency
- Collaborate with team members to identify and implement process efficiency improvements

#### B. Analytics & Insight Generation

- Perform exploratory data analysis (EDA) to identify patterns, trends, and insights
- Support development of basic statistical/ML/DL models under guidance
- Translate analytical outputs into business-relevant insights and recommendations

#### C. Innovation Initiatives

- Contribute to innovation pilots (e.g., ML/DL use cases, automation tools, insight generation)
- Assist in building prototypes, proof-of-concepts (PoCs), or accelerators
- Stay updated with emerging ML/DL techniques (automation frameworks) and support experimentation
- Help document and scale successful innovation use cases

#### D. Collaboration & Learning

- Work closely with data scientists, product owners, and business stakeholders
- Participate in team discussions, problem-solving sessions, and knowledge sharing

Demonstrate a structured approach to problem-solving and communication

## Key Performance Indicators (KPIs)

### Delivery & Execution

- Tasks completed within defined timelines
- Accuracy and quality of data processing / analysis outputs
- Compliance with SOPs, QC standards, and documentation practices

**Skills:**

- Python, SQL, ML, DL basics, etc.

**Languages :**

- English

**Why Novartis:** Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together? <https://www.novartis.com/about/strategy/people-and-culture>

**Benefits and Rewards:** Learn about all the ways we'll help you thrive personally and professionally.
