Сводка

The AIDE Intern will support the team within the Insights & Analytics (I&A) organization, contributing to both business operations delivery and innovation-led initiatives.

About the Role

Major Accountabilities

The role provides hands-on exposure to real-world analytics applications in commercial analytics, enabling the intern to work on data-driven decision-making, process optimization. The intern will collaborate with cross-functional teams to deliver actionable insights, improve operational efficiency, and prototype innovative solutions, while developing strong foundations in data science, analytics, and business problem-solving.

A. Business Operations Support

- Assist in data preparation, cleaning, and validation across datasets (e.g., claims, sales, promotional data)
- Support execution of multiple analytical frameworks
- Help in documentation of workflows, SOPs, and process artifacts to ensure delivery consistency
- Collaborate with team members to identify and implement process efficiency improvements

B. Analytics & Insight Generation

- Perform exploratory data analysis (EDA) to identify patterns, trends, and insights
- Translate analytical outputs into business-relevant insights and recommendations

C. Innovation Initiatives

- Contribute to innovation pilots (e.g., Analytical use cases, automation tools, insight generation)
- Assist in building prototypes, proof-of-concepts (PoCs), or accelerators
- Stay updated with emerging analytical techniques (automation frameworks) and support experimentation
- Help document and scale successful innovation use cases

D. Collaboration & Learning

- Work closely with team members and business stakeholders
- Participate in team discussions, problem-solving sessions, and knowledge sharing

Demonstrate a structured approach to problem-solving and communication

Key Performance Indicators (KPIs)

Delivery & Execution

- Tasks completed within defined timelines
- Accuracy and quality of data processing / analysis outputs
- Compliance with SOPs, QC standards, and documentation practices

Skills:

- Python, SQL, Visualization skills (BI, etc.)

Languages :

- English

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you.
