WORK ARRANGEMENT: Hybrid Working, #LI-Hybrid

LOCATION: Mexico City, Mexico

RELOCATION SUPPORT: This role is based in Mexico City, Mexico. Novartis is unable to offer relocation support: please only apply if accessible.

What if your expertise could help accelerate the development of life-changing medicines for patients around the world? As a Clinical Research Medical Advisor (CRMA), you will play a pivotal role in bringing innovative therapies closer to patients by shaping clinical trial strategy, driving operational excellence, and partnering with leading investigators and healthcare experts. This is a unique opportunity to combine scientific expertise with cross-functional leadership, influencing the successful delivery of clinical development programs while helping Novartis reimagine medicine for people everywhere.

About the Role

As a CRMA, you will provide Clinical Development and indication expertise specific to Country/Cluster, and together with the clinical trial operations team, drives the execution of clinical trials with high quality and within planned timelines.

Key Responsibilities

- Validates study designs, is accountable for, and makes the final decision on the clinical/medical trial and program feasibility of implementing a clinical trial protocol based on medical/clinical practice and analysis of the competitive environment in the country.
- Actively contributes to scientific/clinical/medical aspects of the start-up phase to ensure fast clinical trial site start-up.
- Provides clinical/medical expertise to clinical trial operations team members and clinical trial sites for Institutional Review Boards (IRB)/ Ethics Committee (EC) interactions.
- Decides on site/Country-specific scientific/clinical/medical content of the Informed Consent Form (ICF) as needed and ensures appropriateness of patient suitable language.
- Provides scientific/clinical/medical expertise during interactions with Country/Cluster external Experts (e.g., Regulatory Authorities, Medical Experts, Advisory Boards, Patient Advocacy Groups, etc.).
- Drives patient recruitment strategies and proactively address enrolment and data quality challenges.
- Collaborate across functions to deliver high-quality clinical trials on schedule and in compliance.

Essential Requirements

- Advanced scientific degree in Medicine, Pharmacy, or Life Sciences and ideally, 3 years of clinical development experience in the pharmaceutical industry or clinical practice
- Ability to manage a study from a scientific/medical/clinical perspective, and a demonstrated capability to problem solve and mediate complex scientific/clinical/medical/operational issues.
- Ability to lead effectively by communicating well, motivating a cross functional team, and handling and delegating responsibilities.
- Ability to evaluate protocol feasibility and solve complex clinical challenges.
- Sound understanding of the overall clinical development process, and International Conference on Harmonization (ICH)/ Good Clinical Practice (GCP) principles
- Excellent communication skills with experience influencing cross-functional stakeholders. Fluency in Spanish & English are essential.
- Demonstrate an agile mindset by setting clear priorities, collaborating openly, and using feedback to make step-by-step improvements

Commitment to Diversity and Inclusion:

Novartis is committed to building an outstanding, inclusive work environment and diverse team representative of the patients and communities we serve.

Accessibility and accommodation:

Novartis is committed to work with and provide reasonable accommodation to individuals with disabilities. If, because of a medical condition or disability, you need a reasonable accommodation for any part of the recruitment process, or in order to perform the essential functions of a position, please send an e-mail to tas.mexico@novartis.com and let us know the nature of your request and your contact information. Please include the job requisition number in your message.

Why Novartis:
