Сводка

The role provides data-driven insights, performance visibility, project governance, and execution support to help leadership make informed decisions, improve operational efficiency, and deliver strategic initiatives. Working closely with regional and global stakeholders, the position identifies opportunities for process improvement, automation, and digital innovation to support Procurement's transformation and long-term business objectives.

About the Role

Major Accountabilities

- Drive Procurement Performance Analytics & Reporting: Develop, maintain, and enhance dashboards, KPIs, scorecards, and reporting solutions for Procurement and Global Fleet performance management.
- Generate Data-Driven Business Insights: Analyze spend, savings, supplier, compliance, operational, and project data to identify trends, risks, opportunities, and value creation initiatives.
- Enable Strategic Decision-Making: Translate complex data into actionable insights, recommendations, and executive-level narratives to support leadership decisions and category strategies.
- Support Procurement Strategy & Performance Reviews: Provide analytics and performance transparency to support business reviews, strategic planning, transformation tracking, and leadership discussions.
- Ensure Data Governance & Reporting Excellence: Maintain high standards of data quality, consistency, reliability, and governance across reporting and performance management processes.
- Provide PMO & Transformation Support: Manage project plans, milestones, governance materials, risk logs, action trackers, and progress reporting to ensure successful initiative execution.
- Drive Digital Transformation & Continuous Improvement: Identify and implement opportunities for process simplification, automation, AI, analytics, and workflow optimization to improve efficiency and user experience.
- Enable Leadership Communications & Organizational Effectiveness" Support executive presentations, governance forums, communications, training, meeting coordination, action tracking, and adoption of new tools and ways of working.

Minimum Requirements

- Education: Bachelor's degree in Engineering, Data Analytics, Economics, Finance, Information Systems, or a related discipline.
- Relevant Experience: 4-7 years of experience in Data Analytics, Business Intelligence, Procurement, PMO, Consulting, Operational Excellence, or related functions.
- Analytics & Reporting Expertise: Proven experience developing dashboards, managing KPIs, performing business performance analysis, and delivering reporting solutions. Experience in Microsoft Office 365 (Power BI, Power Point and Excel) Business Insight & Executive Communication: Demonstrated ability to convert complex data into actionable insights, recommendations, and presentations for senior stakeholders.
- Project Management & Governance: Experience supporting project execution, governance processes, risk management, action tracking, and cross-functional transformation initiatives.
- Procurement or Operations Knowledge: Exposure to Procurement, Supply Chain, Operations, or related business functions, with an understanding of performance and operational metrics.
- Digital Transformation & Automation Capability: Knowledge of AI, automation, analytics, and continuous improvement methodologies, with experience supporting technology-enabled transformation initiatives.
- Stakeholder Management & Communication Skills: Strong collaboration, influencing, presentation, and communication skills, with the ability to work effectively across regions, functions, and organizational levels; fluent English and Spanish required (Portuguese preferred).

Desired skills: SAP Ariba system , Power BI, Power Automate, Power Apps, Microsoft Copilot, Alteryx, Dataiku, SQL, Snowflake, Power Query, Python, Tableau, and Jira.
