Сводка

#LI-Remote

As a Medical Scientific Liaison (MSL), you will serve as a trusted scientific partner to Medical Experts and key healthcare stakeholders, enabling high-quality scientific exchange that advances patient care and supports Novartis' commitment to reimagining medicine. In this field-based role, you will translate complex scientific data into meaningful clinical insights, support evidence generation activities, and strengthen Novartis' scientific leadership through collaborative engagement with the medical community. This role offers the opportunity to work at the intersection of science, clinical practice, and innovation while making a meaningful impact on patients' lives.

About the Role

Job Description

Key Responsibilities

- Develop and execute strategic Medical Expert engagement plans aligned with country medical priorities and therapeutic area strategy.
- Build and maintain strong scientific relationships with Medical Experts, investigators, and key healthcare stakeholders through compliant, peer-to-peer scientific exchange.
- Educate Medical Experts on emerging clinical data, disease state information, and approved scientific content.
- Respond accurately and compliantly to unsolicited medical and scientific inquiries from healthcare professionals.
- Support Novartis-sponsored clinical research programs through study site identification, feasibility activities, trial execution support, and scientific collaboration with clinical operations teams.
- Facilitate Investigator Initiated Trial (IIT) processes and provide scientific guidance upon investigator request.
- Gather, synthesize, and communicate actionable medical insights from the field to inform medical strategy and evidence-generation plans.
- Act as a scientific resource for cross-functional colleagues by providing therapeutic area expertise and clinical data interpretation.
- Ensure timely reporting of technical complaints, adverse events, and special case scenarios related to Novartis products in accordance with company policies.
- Maintain the highest standards of Ethics, Risk & Compliance, governance, and documentation requirements across all medical activities.

Essential Requirements

- Advanced degree in Life Sciences, Pharmacy, Medicine, or a related scientific discipline (MD, PharmD, PhD, MSc or equivalent).
- Experience in Medical Affairs, Clinical Research, Medical Information, or a related scientific field within the pharmaceutical or healthcare industry.
- Strong understanding of clinical research, clinical trial design, epidemiology, biostatistics, and drug development processes.
- Demonstrated ability to communicate complex scientific and clinical information effectively to healthcare professionals and Medical Experts.
- Experience building and maintaining professional relationships with external stakeholders and key opinion leaders.
- Strong collaboration skills with the ability to work effectively across boundaries in a matrix environment.
- Proficiency with CRM systems and other relevant digital tools.
- Excellent medical writing, presentation, and scientific communication skills.
- Fluent in English and Spanish, both written and spoken.

Desirable Requirements

- Previous experience in a field-based Medical Scientific Liaison role.
- Experience supporting Phase IV studies, investigator-sponsored research, or evidence-generation initiatives.

Benefits & Rewards

At Novartis, we're committed to reimagining medicine together - and rewarding the people who make it happen.

Expected Annual Base Salary Range for role: 73.100.00 - 104.400.00 - 135.700.00 EUR Annual

The base salary offered is determined based on gender-neutral objectives, such as relevant skills, competencies and experience in accordance with the Novartis pay setting policy and upon joining Novartis will be reviewed periodically.

In addition to your base salary, you may be eligible for a performance-based bonus depending on certain performance parameters.

The rewards of being part of our team go far beyond base pay and incentives. We also offer a variety of competitive benefits in kind to help you thrive personally and

professionally, such as insurance plans, retirement plans, wellbeing resources and global recognition programs. In addition, we provide flexible and hybrid working options, where possible, and minimum 14 weeks paid parental leave.

You may be eligible for a company vehicle or a car allowance in accordance with the applicable local Novartis policies and guidelines.

Pay equity is a fundamental principle of our employment policy and reflects our commitment to create a diverse, equitable and inclusive environment that treats all employees with dignity and respect, as outlined in our Code of Ethics.

Read our brochure to learn more about our global total rewards offering:

Note: Benefits and compensation may vary by country and are subject to local legal requirements, including provisions of collective bargaining agreements where applicable. A full overview of your compensation package, including any relevant collective bargaining agreement details applicable to your role based on your employment location and Novartis employer entity, will be communicated separately to you during the application process.

Why Novartis: Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together?
