Imagine driving the strategic initiatives that help shape the future of clinical development across a dynamic and evolving organization. As the Strategy & Operations Hub Manager, you will play a pivotal role in translating strategy into action, enabling operational excellence, and supporting transformation across the Americas hub. Working closely with senior leaders and cross-functional stakeholders, you will drive change, foster innovation, leverage data-driven insights, and help deliver meaningful improvements that accelerate clinical study execution and portfolio delivery. This is an exciting opportunity for a strategic thinker who thrives in complex environments and is passionate about making a lasting impact on how we bring innovative medicines to patients worldwide.

About the Role

Key Responsibilities

· Lead the implementation of strategic initiatives that support business continuity and operational excellence across the Americas hub.

· Drive transformation, change management, and organizational evolution initiatives in partnership with country teams.

· Implement standardized processes, systems, and best practices to enhance consistency and performance.

· Build and maintain strong partnerships with internal and external stakeholders to advance strategic priorities.

· Identify and deliver innovative solutions that improve clinical study execution and operational effectiveness.

· Gather, analyze, and communicate country insights to inform global and hub-level strategic decisions.

· Generate data-driven business insights and productivity analyses to support portfolio delivery and leadership decision-making.

Essential Requirements

· Bachelor's degree in Life Sciences, Business, Statistics, Finance, Operations, or a related field.

· Minimum 5 years of experience in pharmaceutical development, preferably within clinical research.

· Strong knowledge of drug development processes and global regulatory and compliance standards.

· Proven ability to lead change initiatives and influence stakeholders within complex matrix organizations.

· Experience using data-driven approaches to improve operational performance, productivity, and efficiency.

· Excellent strategic thinking, communication, presentation, and stakeholder management skills.
