Сводка

Some roles manage a function. Others shape how a business thinks, decides and executes.
We're looking for a senior leader to take on the Field Excellence, Integrated Insights & DAP Head mandate in Portugal.

About the Role

This is a high-impact role at the intersection of:

Integrated Insights & Advanced Analytics
Field Excellence, Go-to-Market & Execution
Data, Digital & Platforms
AI & GenAI enablement
Leadership of a multidisciplinary team

The mandate goes beyond functional leadership. It is about **connecting data, customer insights and execution to business strategy**, identifying what truly matters, and translating evidence into **clear choices, priorities and action**

The profile we're looking for combines:

- **Deep analytical thinking** and the ability to find the signal behind the numbers (finance background)
- **Strong business and strategic judgement**, translating complexity into decisions
- The confidence to **challenge assumptions and constructively influence senior stakeholders**
- The ability to move seamlessly between **strategy and hands-on execution**
- Strong understanding of how **finance**, **data, digital, analytics and AI** can unlock business value
- A track record of **leading, developing and inspiring high-performing teams**
- Curiosity, ownership and a strong **bias for action**

It is a **highly visible role**, with meaningful exposure to **senior leadership and Headquarters**, and the opportunity to influence some of the choices that shape the business.

We're looking for someone equally comfortable **at the leadership table and deep in the data**

Not simply to manage what exists.
To challenge it, elevate it and shape what comes next.

If this sounds like the kind of mandate you've been looking for, **let's talk.**
