## Сводка

#LI-Hybrid  
Location: Bucharest, Romania

The Integrated Insights Business Partner is a country-level role within the Integrated Insights pillar of Execution Excellence. The role transforms data into actionable insights to support Commercial and Value & Access decision-making for assigned Therapeutic Areas, bridging strategy and execution through high-quality analytics, market research, and forecasting support delivered within Execution Excellence guardrails.

## About the Role

### Key responsibilities

- Act as the primary Integrated Insights partner for assigned Therapeutic Areas and/or Value & Access, consolidating and shaping business questions into clear insight and analytics requests.
- Translate TA and V&A strategies into actionable insight plans, partnering with Data, Analytics & Platforms and external vendors for delivery.
- Plan, coordinate and execute primary and secondary market research, including patient journeys, segmentation, positioning, ecosystem mapping and competitive intelligence.
- Integrate internal KPIs and external data sources to generate holistic insights on market, customer, brand and campaign performance.
- Ensure effective reuse of existing international and local research assets through knowledge management platforms to avoid duplication.
- Prepare and maintain TA and V&A market assumptions for forecasting, partnering with Finance, TA and Access teams to ensure alignment.
- Provide insight inputs to forecasting, scenario planning, incentive target setting and growth opportunity assessments.
- Support Value & Access decision-making through payer and access-oriented insights, research and data analysis.
- Conduct in-depth data analysis to identify performance trends, opportunities and risks across markets, customers and competitors.
- Develop clear reports, dashboards and presentations, translating complex data into decision-ready insights and recommendations.

### Requirements

- Bachelor's degree in life sciences, business, economics or market research with 8+ years of relevant experience in insights, analytics, market research or commercial strategy roles in pharmaceuticals or healthcare; advanced degree preferred; fluency in English and local language required (Romanian).
- Strong experience in integrated insights, including primary and secondary market research, business analytics, competitive intelligence and forecasting.
- Demonstrated exposure to Therapeutic Area and/or Value & Access planning in a cross-functional environment.
- Proven ability to synthesize complex data into clear, integrated, and business-relevant insights.
- Strong commercial and strategic mindset with the ability to challenge and influence senior stakeholders.
- Hands-on experience with analytics and data tools, including dashboards and data management solutions.
- Excellent data storytelling, presentation, and communication skills.
- Good understanding of regulatory and compliance requirements in market research, including adverse event reporting.
- Ethical mindset aligned with Novartis values and standards.

### Commitment to Diversity & Inclusion:

We are committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

**Why Novartis:** Helping people with disease and their families takes more than innovative science. It takes a community of smart, passionate people like you. Collaborating, supporting and inspiring each other. Combining to achieve breakthroughs that change patients' lives. Ready to create a brighter future together?
